Career Objective

Computer Science and Information Technology undergraduate with strong knowledge of Java, React.js, JavaScript, SQL, MySQL, and frontend web development. Experienced in building responsive web applications and Android applications through academic projects and internship training. Skilled in Data Structures, Object-Oriented Programming, DBMS, and Software Engineering. Passionate about software development and solving real-world problems through technology.

Education

Bachelor of Technology (B.Tech) – Computer Science and Information Technology **2023–2027**
Rajarambapu Institute of Technology, Rajaramnagar, Sakharale **CGPA: 9.12**
Class 12th **2023**
Shri. Sonai Junior College, Talsande **89%**
Class 10th **2021**
Shri. Balvantrao Yadav Highschool, Peth Vadgaon **92%**

Technical Skills

Programming Languages: Java, Python, C, C++
Web Technologies: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS
Databases: SQL, MySQL, MongoDB
Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering, System Design
Tools: Git, GitHub, VS Code, Figma

Experience

MERN Stack Developer Virtual Intern | *EduSkills* **Mar 2026 – Jun 2026**

- Developed and deployed a MERN stack web application serving 100+ test users, featuring responsive UI and secure backend integration.
- Optimized frontend performance by implementing reusable React components and REST API integration, reducing page load time by 30%.

Projects

Shri Trimurti Jilha Nagari Sahakari Pathsanstha – Website

- Developed a responsive banking website using React.js, JavaScript, HTML5, and CSS3.
- Built reusable React components for scalable and maintainable UI development.
- Implemented responsive web design for desktop, tablet, and mobile devices.
- Improved user experience using component-based architecture and modern frontend practices.

Sai Abhyasika – Smart Study Room Management System

- Developed a responsive study room management system using React.js, JavaScript, HTML5, and CSS3.
- Implemented student registration, seat allocation, attendance, fee management, achievements, and dashboard modules.
- Integrated Node.js, Express.js, and MongoDB for backend services and data management.
- Designed reusable components and responsive UI to improve usability and management efficiency.

Certifications

- Android Developer Virtual Internship – AICTE EduSkills
- Frontend Web Development – Infosys Springboard
- SQL and Database Management – Simplilearn
- Machine Learning & Data Science – EduSkills
